JESRENE CHEOY

Subang Jaya, Selangor | jescheoy@gmail.com | +60 10-229 2399 | https://jesrene.github.io/jesrene-portfolio/

PROFESSIONAL SUMMARY

Analytical and detail-oriented professional with experience in digital platform operations, troubleshooting, quality assurance, and cross-functional problem solving. Strong foundation in Computer Science and web development, with experience identifying issues, validating implementations, and reviewing data accuracy. Looking to leverage these skills to transition into software QA and contribute to reliable, high-quality web and mobile products.

EXPERIENCE

Regional Ad Operations Support April 2024 - Present

FreakOut Sdn. Bhd.

Part of a team of specialists responsible for developing and deploying all national and international campaigns company-wide.

- Develop and deploy digital ad formats across multiple platforms for national and international clients.
- Test and validate ad tags, tracking pixels, and rich media creatives before and after launch to ensure correct implementation and accurate measurement.
- Monitor campaign delivery, identify and troubleshoot issues, and coordinate resolutions to maintain quality and performance.
- Review campaign data and reporting to identify discrepancies, maintain data accuracy, and ensure 80%+ KPI alignment across rich media campaigns.
- Manage and supervise 200+ local campaigns, collaborating with cross-functional teams to resolve issues and deliver campaigns generating approximately USD 1.2M in revenue.

Digital Campaign Ad Operations Intern January 2024 - April 2024

FreakOut Sdn. Bhd.

- Supported campaign setup, implementation, monitoring, and quality checks across digital advertising platforms.
- Assisted in identifying campaign issues and coordinating with relevant teams to resolve discrepancies.
- Monitored campaign performance and reporting data to support accurate tracking and campaign optimisation.
